

AVX993 Disk Array (W/Mini-SAS)

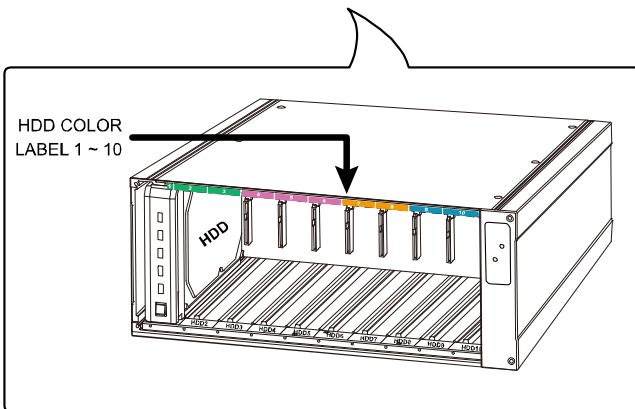

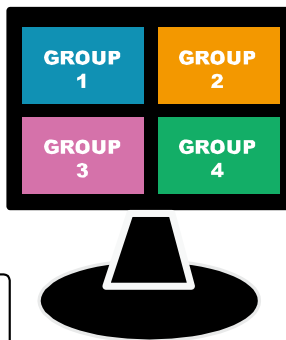

This disk array is designed especially to work with AVTECH NVR, AVH364, for video storage.

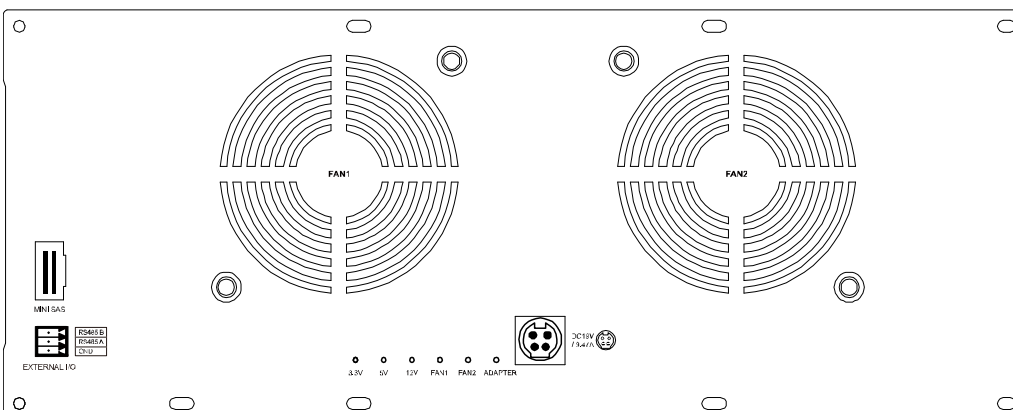

AVH364 has divided all 64 channels into four groups for live display and recording, and videos in each group are recorded to specific hard disks as indicated below. The first two groups have three hard disks to record, and the last two groups have two hard disks to record.

If such storage allocation is not sufficient, AVX993, the disk array, could be used to connect to this NVR to expand the storage of each group to five hard disks, as indicated below.

GROUP	HDD COLOR LABEL	HDD NUMBERING	
		AVH364	AVX993
1	Blue	1 ~ 3	9 ~ 10
2	Orange	4 ~ 6	7 ~ 8
3	Pink	7 ~ 8	4 ~ 6
4	Green	9 ~ 10	1 ~ 3

SPECIFICATIONS*

STORAGE	
Drive Bay(s)	10
Compatible Drive Type	3.5" SATA HDD, Up to 6TB per drive
External Ports	
Mini-SAS	YES
RS485	YES
General	
LED Indicators	Power / Fan Error / HDD Status
Operating Temperature	10°C ~ 40°C (50°F~104°F)
Storage Temperature	70°C
Power Source	DC19V / 180W
Power Consumption (without a hard disk connected)	12W
Power Switch	YES
Dimensions(mm)*	325.5 (L) x 281.17 (W) x 138.1 (H)
Weight(kg)	10.6
Optional Accessories	Rack mount (AVH516PLUS-RBKT)
